01 ABOUT

I'm a tech-savvy Engineering graduate skilled in HTML, CSS, JS, and Python, with a passion for turning ideas into captivating visuals and enhancing online presence. Holding a degree from Dr. Babasaheb Ambedkar Technology University, I'm also a fervent Graphic Designer. My goal is to join a renowned organization as a Data Scientist, driven by self-improvement, methodical work, and a hunger for tech innovation. Let's collaborate and explore opportunities for innovation!

02 EDUCATION

Dr. Babasaheb Ambedkar Technological University

Bachelor of Technology (2020 - Present)
Electronics and Telecommunication Engineering

Bhavan's B.P. Vidya Mandir Ashti

High School (2018 - 2020)
Physics, Chemistry, Mathematics and Computer Science

K.John Public School , Saoner

Junior High School (2018)

03 PROJECTS

- **Portfolio**
  Showcase skills & projects with HTML, CSS, JS.
- **Online Fraud Detection**
  ML-based Online Fraud Detection
- **CertifyMe**
  Get Verified: CertifyMe - Authentic College Docs! (Full-Stack Website)
- **Mitigating Railway Collison with Wildlife**
  Arduino UNO alerts gas leaks.
- **Gas Leakage Detection and Alerting System**
  Arduino UNO prevents train-wildlife collisions.

04 ACHIEVEMENTS

- **POSCO Asia Fellowship**
  I was thrilled to be chosen for the Posco scholarship, selected among 50+ outstanding students. The scholarship rewarded me with Rs 40,000 in funding, a tremendous honour and opportunity for my academic journey.
- **Jindal Science Conclave**
  I was thrilled to win the second prize at the Jindal Science Conclave hosted by JSW Steel for our innovative "Multipurpose Agriculture System" project. This recognition inspires our commitment to sustainable farming solutions.
- **Co-Founder of Benefactor (Startup)**
